Equal opportunities for all!

Everyone is welcome
Regardless of background, function, age, gender, gender identity and expressions, sexual orientation and religious beliefs.

Everyone is equally different
A group of people is never homogeneous. An individual’s identity and the conditions have always several aspects.

Everyone is right
It is the social structure and our responsibility to include people in a better way.

We take actions
At E.ON, we actively work to create and maintain an open and inclusive environment.
Diversity focus

- Increase the share of female managers
- Increase the number of employees with another ethnic background
- Increase the knowledge and understanding
